## **CANADIAN END-OF-LIFE DOULA RESEARCH**

As a practising **Canadian** End-of-Life Doula (EOLD) for the last 7 years and a master's student at the University of Glasgow UK, and a member of the End-of-Life Doula Association of Canada, I am interested in peoples' experiences of EOLDS. With no research currently available in this area, my research aims to provide insights into peoples' experiences working with EOLDS in **Canada**. This knowledge can then be shared with other EOLD practitioners to help clarify the EOL care needs for families and to help define the parameters of EOLD care that can support the work of other healthcare practitioners.

In order to gather these valuable experiences and perceptions from Canadian families or friends that have worked with an EOLD, I am looking for family members or friends that would be willing to participate in a **short 10-minute anonymous online survey**.

**If you are a family member or friend who has used an End-of-Life Doula within the last five years and are past six months of bereavement, and would like to participate in this valuable research, please click here; [https://uofg.qualtrics.com/jfe/form/SV\\_7U4bM2lotzjmZka](https://uofg.qualtrics.com/jfe/form/SV_7U4bM2lotzjmZka) to access the anonymous online survey.**

All information will be confidential and protected with no identifying factors. At the end of the survey, you will have the opportunity to leave your email if you would like to be contacted for further conversation with the researcher.

If you would like to know more about this research, please feel free to contact me at:

Sarah Farr [2645140F@student.gla.ac.uk](mailto:2645140F@student.gla.ac.uk).
